

DENTRO DE TI

Synopsis

After recovering from a traumatic experience which marks her existence for years, Miriam Romero cultivates her inner force to become an independent decisive young woman and obtain a doctor's degree in Clinical Psychology. Her creed's principal premise, and with which she feels absolutely protected, is not to succumb to sentimental temptations that would disrupt her invincible security.

On the other hand, Alex Campoy, son of a selfless family devoted woman and a manipulative man who exerts his authority by force, remains trapped between a troubled past and a fallible future, incapable of reacting, afraid of evolving. A thriving job at the Police Department and the limpid innocence of his son Adrián are the two only satisfactions he enjoys.

From their earliest origins, and as a prank of fate, Miriam and Alex's paths intersect mysteriously keeping them unaware of it. Their lives run like two parallel lines in unknown harmony until, disobeying any geometric pattern, they converge. The question is, taking into account the emotional burden each of them carries, how long will this tangent point last?

A story of light and hope where love flows next to gender violence, shattering to pieces all stereotypes unanimously accepted.

The same story told by two different voices.
